

## Choosing Cesarean: A Natural Birth Plan

Obstetrician and gynecologist Magnus Murphy, MD, and journalist/advocate Pauline McDonagh Hull offer a compelling case for surgical delivery as a legitimate birth choice for informed women. By offering a wealth of medical evidence from around the world and thoughtfully countering the many objections detractors have lodged against it, the authors convincingly demonstrate that a planned cesarean birth at thirty-nine-plus weeks is a safe and often preferred alternative to a planned vaginal delivery. An indispensable guide for women, their families, and medical professionals.
