

Supply Network Strategies

Supply Network Strategies deals with how companies activate relationships with suppliers in order to become more efficient and innovative. In recent years, increasing emphasis has been placed on the ways in which these relationships link companies in supply chains and networks. In this book, the authors examine the supply side of companies from a network perspective. The IMP (Industrial Purchasing and Marketing) Group of researchers includes leading international experts in the fields of industrial / business marketing and purchasing. This group is very influential and many university courses have been developed based on the philosophy of the IMP group
