Excerpt from Unitarianism, Incapable of Vindication: A Reply to the Rev. James Yates Vindication of Unitarianism This Reply has swelled in its progress to a degree which I did not anticipate. There are few things, indeed, to which the phrase *crescit eundo* is more strongly applicable, than to a defensive work in theological controversy: - and, besides the extension of the work itself, various engagements and circumstances, in the detail of which the public could have no interest, have contributed to delay its appearance so unexpectedly long. - My wish being to make it a final answer, and, as far as possible, to preclude the necessity, on my part, of any prolongation of the discussion, I resolved, some time after having begun, to allow myself freer scope than I had originally intended; conceiving that it would not be justice, either to myself or to my subject, to omit illustrations or reasonings, which might, in any material degree, contribute to the elucidation and settlement of the questions at issue. An assertion may be made in a single sentence, which it may require pages to refute while the brevity and imposing confidence with which it is made, may increase, instead of lessening, the necessity for its refutation.
