

Taking part: Activities for people with dementia

This publication is a totally updated version of the original Alzheimers Society book of activities. Taking part: Activities for people with dementia remains an authoritative and comprehensive source of ideas for enjoying time with people with dementia, which remains its core focus. It reflects and details up-to-date research evidence on the benefits of specific activity areas for people with dementia. It features more than 80 activity ideas many coming from Alzheimers Society local offices who provided examples of the innovative and effective activities ongoing in their services truly demonstrating the way in dementia care and support. Insight from professionals and practical tips give further ideas and guidance for activities and how to adapt these appropriately across a range of different care settings. The book also features some wonderful case studies. These include groups attending museums and practical cooking lessons as well as craft-based activities and conversation groups which took part as a structured series of sessions using a cognitive stimulation approach. As a resource it both demonstrates the Societys strengths in information and service provision as well as providing a source of ongoing reference for anyone involved in caring for or supporting someone with dementia. Understanding the importance of meaningful occupation is vital to seeing that, while life with dementia can be difficult, it is also possible to live well. With the right treatment, care and support, people with dementia can continue to participate in many aspects of daily life as well as enjoy a range of activities. The book is A4, full colour and spiral-bound; it includes a comprehensive index and photography throughout. It offers a refreshed approach to meaningful occupation for people with dementia. This is not only applicable in the context of a structured activity programme but in every

aspect of care. About the Author
Alzheimers Society is the UK's leading support and research charity for people with dementia, their families and carers. They provide information and support to people with any form of dementia and their carers through their publications, National Dementia Helpline, website, and more than 2,000 local services. They campaign for better quality of life for people with dementia and greater understanding of dementia. They also fund an innovative programme of medical and social research into the cause, cure and prevention of dementia and the care people receive. For more information see www.alzheimers.org.uk
